

## Getting Husker autographs

April 13, 2010

Area youngsters lined up to visit Nebraska senior football players and have them sign autographs before the start of the 'Husker Hoops' basketball game last Friday night. Waiting for autographs from Husker safety Matt O'Hanlon are, l. to r., Christian Benda, his mother Tammy and brother Derek, and Tyler Martinsen. The game at Boone Central High School featured Nebraska football seniors playing a team of 10 area high school senior stars to raise funds for the Boone County Hospital Foundation's 2010 Project Care and Comfort. The money will help equip a private patient suite in the new hospital addition for terminally and seriously ill patients.

## Husker Hoops Benefit Fun, Successful

April 13, 2010

Chris Brooks, a senior wide receiver on the 2009 University of Nebraska football team, rises high to slam home two points during the Husker Hoops event held Friday, April 9, at the Boone Central gymnasium in Albion. Husker Hoops, with Nebraska football seniors playing a team of 10 area high school seniors, raised funds for the Boone Central Hospital Foundation's 2010 Project Care & Comfort that will help outfit private patient suites in the new hospital addition for terminally and seriously ill patients. Along with the basketball action, Husker players signed autographs and had photos taken with fans, and contests were held at halftime, including raffle drawings for a Husker jersey and game tickets, and a halfcourt-shot contest for an autographed football.

## **Husker Hoops Tip Off April 9 In Albion**

March 30, 2010

Under the watchful eye of volunteer coach Pat Larsen, 11 area high school seniors have practiced for their upcoming game against University of Nebraska senior football players in the Husker Hoops event Friday, April 9, at the Boone Central High School gymnasium in Albion.

Proceeds from the event will help fund the Boone County Health Center Foundation's 2010 Project Care & Comfort. Project Care & Comfort will fund both medical equipment and furnishings for two private patient care suites in the hospital's new patient care addition. The two new suites are designed for terminally or seriously ill patients needing extended care.
