Norfolk Public School Bond Issue Passes

On March 15th, a majority of voters in the Norfolk Public School District said yes to the bond issue requesting \$20 million to make improvements to 11 school facilities within the district. Work has already begun on the design and planning for the first phases of construction, set to begin in May or June. The school board took great pains to determine the most cost efficient means of upgrading and modernizing the district's facilities.

Initially, work will focus on an addition to the middle school. This will allow sixth grade students from the elementary school buildings to move to the middle school, thus providing some much needed space in the elementary buildings, which have become crowded as a result of the addition of all day kindergarten.

The remaining projects will begin as soon as design can be completed and the work scheduled. All in all, there promises to be a lot of activity around town for the next 24-30 months. Beckenhauer is looking forward to working with the school board, administration, staff, and the design team from BVH Architects. We anticipate a series of outstanding projects and exciting opportunities.

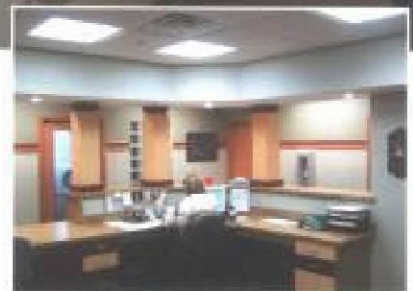

Because It's Our Commitment

Beckenhauer Construction has made a Corporate commitment to being a leader in the field of Design/Build and Construction Management. Our relationships are built upon trust, honesty and integrity as evidenced by our many repeat clients—many of whom have been shared from generation to generation.

Dr. Jim Thor's new Creekwood Chiropractic Clinic, which was designed and constructed in just 60 days.

Creekwood Chiropractic

Last winter, Beckenhauer Construction was faced with the challenge of completing the design and construction of the interior of the new 5,000-square-foot Chiropractic Clinic for Dr. Jim Thor in just 60 days. All the parties involved in the project's design and construction put forth a Herculean effort to meet this challenge, despite having to contend with the Christmas and New Year's holidays.

We're proud to have been able to provide the result the owner desired within the required time frame. Once again, our team delivered on time and under budget. Thanks to Dr. Thor for offering us the opportunity to help turn his dream into a reality.

Project Updates...

Steel erection in progress.

Tyco and Beckenhauer: Together For 45 Years

Once again, Beckenhauer Construction has been given the privilege of working for Tyco Health Care. This relationship started in 1960 and, to our delight, has continued ever since. The current expansion involves 10,000 square feet that will house additional manufacturing equipment to expand production. Thanks to Tyco for allowing us to be a partner in their continued growth.

Wisner Medical Clinic & Elkhorn Logan Valley Public Health Care

Work is moving forward on Wisner Medical Clinic (building at right) and Elkhorn Logan Valley Public Health Care (building at left).

Creekwood Professional Park

Work is progressing on Creekwood Professional Park Building #3. At press time, there is still up to 7,000 square feet of space available. Creekwood Professional Park offers professional office space, with the option to lease or own your own space. Call our office for additional information.

Elkhorn Valley Bank

Elkhorn Valley Bank's Taylor Avenue addition is open for business. This beautiful addition is easy to find with the large electronic sign out front proudly displaying the US flag. Stop by and check out this beautiful facility.
