

HOLT COUNTY ANNEX

Client: Holt County

Completed: March, 2003

Location: O'Neill, NE

Size: 14,600SF

Services: Design/Build

Industry: Community Facilities

Project Summary:

We worked with the County and devised a Lease / Purchase plan that would meet, not only their needs, but include additional space the county could rent out to Nebraska State Health & Human Services. The new building needed to be constructed so close to the existing building that a portion of the new building could not be finished until after the County was moved into their new space and the old building was demolished.
