

## NEWMAN GROVE SCHOOLS

**Client:** Newman Grove Schools

**Completed:** August, 2003

**Location:** Newman Grove, NE

**Size:** 3,600SF

**Services:** Construction Management

**Industry:** Education

**Project Summary:**

This project was a classroom addition. The school board had funds available from their special building fund and was being told that they could not complete the project for the dollars they had available. We were allowed to research the project and the corresponding budget and by working together with the architect we provided the needs of the school within the funds available.
