

NORFOLK FIRE STATION #2

Client: City of Norfolk

Completed: May, 2004

Location: Norfolk, NE

Size: 8,600SF

Industry: Community Facilities

Project Summary:

To keep up with the growing needs of the city, Norfolk was required to build a new Fire Station to meet necessary response times. This new Fire Station includes living quarters, weight room, exercise room and 3-bay garage for fire and rescue. This project was actually a hard bid but we were chosen based on our reputation for completion, budget and quality. Schedule was a vital part of this project.
