To whom it may concern:

Adams County has had the pleasure of working with Beckenhauer Construction, Inc. on our Jail/Justice Center project totaling over \$38 million dollars. The experience of working with BCI is new, yet we have found the employees to be knowledgeable and informative on guiding the County through this project. This has led to a strong working relationship that is built on trust and respect. The collaboration with our committee has been paramount to the success of the project and meeting the timeline.

BCI is fully inclusive from the beginning of the project to engage their entire team, offering accurate cost analysis for design options and exploring optional construction materials as well as understanding on site issues that may result in project design changes. They stay on task at keeping an up-to-date analysis of the project budget and provide the information to the County. As project owner, we appreciate BCI involvement in the community and willingness to collaborate with the County on recommendations of local business participation when it comes to contractors and material suppliers.

We highly recommend Beckenhauer Construction, Inc. for construction management.

Sincerely,

A handwritten signature in black ink that reads "Lee Hogan".

Lee Hogan, Chairman

Adams County Board of Commissioners
