Beckenhauer Construction, Inc.

1901 Riverside Blvd

Norfolk, NE 68701

Attn: Tim Galligan

Dear Tim:

I would like to thank you and your staff for a fine job done in regards to our linear accelerator vault renovation. This project started out with a larger scope. After bids came in, we came to find out that there had been limited funds established for this project. Given that challenge, you were able to reduce scope and meet the budget given in the short time frame we were being held to. Your staff was professional and courteous. They were also very aware of our need for dust containment.

Thank you,

A handwritten signature in black ink, appearing to read "Randy Bylander". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
