To Whom It May Concern,

Kyle Klein has been managing a construction project for us this last year, as a Superintendent for Beckenhauer Construction. This project has been a little difficult, due to delays in material availability, but Kyle has done an exemplary job of working around those difficulties to keep the project successfully on track. Kyle knows the construction industry well and effectively manages the people and processes efficiently. His project has always been safe, organized, clean and well managed.

We have been very fortunate to have Kyle running this project for us. I would not hesitate to have him run another project for us in the future. I highly recommend both Kyle and Beckenhauer Construction for any construction project that you might have.

Please feel free to contact me if you have any questions or would like to have more information.

Thank you.
