

October 1, 2012

Beckenhauer Construction, Inc.
1901 Riverside Blvd.
Norfolk, NE 68702

Subject: St. Francis Memorial Hospital
West Point, Nebraska

To whom it may concern:

Projects are truly successful when all stakeholders are in alignment with the end goal, when the entire team is committed to success. The St. Francis Memorial Hospital is a great example of what can happen when that alignment with one goal in mind occurs.

HDR Architecture, Inc. would like to take this opportunity to congratulate and thank your company and employees for their performance and hard work. Every subcontractor and employee took a personal interest in the endeavor. This combined with the sense of contribution to the community made it a true example of teamwork and dedication.

I would like to personally thank your Foreman, Craftsman and Managers for the quality, safety and performance demonstrated in this addition and subsequent renovation project.

Once again, HDR Architecture, Inc. is proud and privileged for having had the opportunity to work with you.

Sincerely,

HDR Architecture, Inc.

Clarence E. Lind, AIA
Vice President
