Re: Letter of Recommendation for Beckenhauer Construction, Inc.

To Whom It May Concern:

Beckenhauer Construction has worked with and for Holt County on two major projects. First, Beckenhauer Construction used the design build concept to construct a new 1.2 million dollar Holt County Annex, which began in April of 2002.

Their exemplary performance on the Annex Project led the County Board to employ Beckenhauer Construction, Inc., to serve as the Construction Manager for the 2.6 million dollar Holt County Courthouse ADA modification and addition, which started in March of 2003.

Throughout both projects Beckenhauer Construction, Inc.'s on the job personnel proved time and again their willingness to perform in a cooperative and professional manner. The residents of Holt County can be rightfully proud of the two resulting buildings.

I am pleased to be able to highly recommend Beckenhauer Construction, Inc. for any renovation or new project. Holt County will not hesitate to call upon Beckenhauer Construction, Inc. should a future project develop.

Sincerely,

A handwritten signature in cursive script that reads "Don Hahlbeck".

Don Hahlbeck, Chairman
Holt County Board of Supervisors
