Dear Mr. Beckenhauer,

I would like to take this opportunity to say thank you for a job well done. Having been the construction manager for our Law Enforcement Center project I experienced your company and employees do an outstanding job.

This project was a new adventure for all of us at the Red Willow County Sheriff's Department. The dedication and attention your company and employees gave to us during this project was amazing. The constant communications with your employees made this project very successful. I must commend Carl Gibbs and his expertise in keeping us abreast of everything taking place. Carl did an outstanding job in his position with your company. He was always available to help with any issues or answer any of our concerns.

This project spanned a period of almost five years that we worked together to see this facility finished. Having never been involved in a project of this magnitude, it was a huge learning experience for me. Your staff took the time to make sure we understood what to expect from the construction industry.

I feel very fortunate to have had the opportunity to help get a new Law Enforcement and Detention Center in Red Willow County. We are grateful to have had your company turn a long time dream into reality. It is for these reasons that I would highly recommend Beckenhauer Construction to anyone with construction needs. I believe you made this project a success and would be successful in any project you enter into.

Again, thank you for all that you and your staff have done on our very successful project.

Sincerely,

A handwritten signature in black ink that reads "Gene Mahon".
