To Whom It May Concern:

As Chief Executive Officer of the Tri-County Hospital, I have had the pleasure of working with Bill Barritt and Josh Probasco of Beckenhauer Construction on our recent Hospital project. Bill and Josh not only worked extremely well together but with the rest of my staff and me.

This project consisted of a new addition and multi phase remodel which involved lots of coordination. When ever I had a question or a problem Bill was extremely prompt in responding to me. Josh did the same with day to day coordination of my staff, keeping them informed of upcoming activities.

Bill and Josh worked very well with the architect, vendors and subcontractors to ensure we received the best possible workmanship and a quality product when the job was done. I would recommend Beckenhauer Construction to other owners for Construction Management Services and look forward to working with them on future phases of work.

Sincerely,

Calvin A. Hiner, Jr., FACHE
Administrator
