Dear Joe:

I thought I'd drop you a brief note and compliment your staff and you on a job you just finished up for us. It is very seldom in today's environment when a contractor can finish a job ahead of schedule and under the original contracted amount, but your company was able to do both of those.

I especially want to compliment Terry Sparks and Dean Uhlenberg for their constant communication with us and coordination on the progress of the job. They continually informed us as to where they were in the job and what was coming next. They were very easy to work with and very professional. Since we didn't close for any of the construction, we anticipated having some headaches but due to their professionalism, it was much smoother than we anticipated.

We are totally pleased with the final result and think the quality and workmanship exceeded our expectations. We were originally informed that the job would take four to five months and you finished at least a month early and well more than 5% under the contract.

With the results and experience we had with your company, we will definitely look to use Beckenhauer Construction, Inc. for our next project.

Sincerely,
