

# Herman Community Church

P.O. Box 230 Herman, Ne 68029 (402) 456-7514

Mr. Ron Stauffer  
Beckenhauer Construction Co.  
1901 Riverside Blvd.  
Norfolk, Ne. 68701

Sept. 9, 2006

Dear Ron,

I had in mind to write you to let you know how very pleased we are with our new building. When our old church was just about condemned we were plenty anxious about how to proceed. As we contacted Beckenhauer Construction Co. we knew we were in good hands. With your many years of experience and fantastic track record we had complete confidence that you would do an outstanding work with us.

We were not disappointed! You took us through the design stage and on the very first drawing we were quite satisfied that the design would "fit" very well in our small community. We knew you understood our special wishes, requirements and sense of community. From there to construction and on to the final "walk through" the professionalism you displayed toward us only strengthened our trust in your ability to bring us to completion. In Proverbs, Solomon, the wisest man who ever lived speaks to us yet today, *"longing fulfilled is sweet to the soul"*. That is certainly the case with us. To be able to worship in our new church building is very sweet to the soul. Many old time members and non attenders are simply overjoyed at its beauty and simplicity and practicality.

We have had so many great comments on the attractiveness and design of our new building in the past few months. We can frankly say it turned out much better than we ever imagined it would. We had no idea how awesome the chandeliers would look when simply chosen from a catalog early in the design phase. They are so gorgeous! One elderly lady, told me she never allowed herself to even dream of a new church - she just knew it could never

happen. Well, it has happened - we have a brand new church building thanks to our faithful God and Beckenhauer Const. Co. Another comment, *"I was amazed when I saw it - it is so well designed and laid out"*. Another - *"very good construction"* and one final comment *"I feel a sense of peacefulness here - a feeling of warmth and comfort, it embraces you"*. We are just delighted with our new facility. In a small community of only 300 people this has been a very significant event as the last church to be built in our town happened in 1901. Thank you!

Sincerely,

  
Pastor Dan Hovanec
