Dear Lowell,

I am writing to express my sincere appreciation for your team's fine work on the Clinic renovation at Jennie M. Melham Memorial Medical Center. Because of the expertise, support, and professionalism of your team, I was able to come in toward the end of the project as a new CEO to the organization and oversee it without concern and with great comfort.

Your team's communication, attention to detail and focus on quality was extraordinary while outperforming on project timeline and budget. Your project manager and project superintendent were clearly customer focused, easy to work with, and assured solid communication throughout the project.

I look forward to our future work together.

Sincerely,
