Dear Buster,

I would like to thank Beckenhauer Construction for the excellent job your company did on my office, Norfolk Children's Dental Clinic. I love the location, the building and the great finishing touches you did to the interior.

My office had many special challenges in the construction, electrical and plumbing that are unique to a dental office. I believe your company did a wonderful job of working with my dental supply company, designer and myself to successfully manage a complex time-oriented task such as this.

I would especially like to thank Brian and Greg for an outstanding job. They answered all my questions, soothed my frazzled nerves and made the overall experience very enjoyable. I love how they still stop by my office to check how everything is going. These are some very great men.

Again, thank you for a job well done. You have helped bring my dream office into a reality.

Sincerely,

A handwritten signature in cursive script that reads "Gina D. Waite".
