RE: Letter of Recommendation

To Whom It May Concern:

This letter is written to express our complete satisfaction with Beckenhauer Construction, Inc., specifically the team they have working on our project here at St. Francis Memorial Hospital. Beckenhauer Construction, Inc. has been the General Contractor of our project since Phase 3, which is the construction for our patient tower and the remodel of existing patient rooms. Beckenhauer Construction has shown professionalism from day one of the project.

Our site Superintendent Don Shum has been a reliable and knowledgeable asset to our project. His understanding of the project has been exceptional; he is very personable and works very well with the project owner as well as all sub contractors. He has been on-site daily to answer questions for other trades and does a great job coordinating work, scheduling, completing required infection control plans, and setting up barrier protection with negative pressure where needed. It's evident that job site safety is important to BCI. Don Shum does a great job enforcing job site safety rules are followed and is an agenda item on all meeting.

Having Beckenhauer Construction, Inc. as our General Contractor I am confident that we will have a great finished project. Please feel free to call me directly if you would like additional information.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jerry Wordekemper". The signature is fluid and cursive, written over a light-colored background.

Jerry Wordekemper  
Project Manager
